DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Dereume et al. (USPN 6,554,858 B2). See figures 5-8, 14, and respective portions of the specification.

Art Unit: 3738

Referring to claims 1 and 9, Dereume discloses a system for bypassing an aneurysm comprising a first prosthesis (3, 11, 12) and at least one (13) or two (33) second prosthesis communicating with the first prosthesis, the first prosthesis (3, 11, 12) comprising a conduit defining a single fluid flow path (2) and having a proximal end configured to engage a section of an artery upstream an aneurysm (fig.14), and a compressible gasket (sections 5 and 6 of 4; col.5, lines 28-29, gasket is said to be flexible and it is attached to outer stent graft of first prosthesis and stent graft of second prosthesis, therefore will compress as the first and second prosthesis compress) positioned in an interior of the conduit (fig.7), the gasket including at least one aperture (7, 8) for receiving the second prosthesis (13, 33) to create a fluid flow path (30), wherein the second prosthesis (13, 33) is configured to provide a fluid flow path through the aneurysm and an anchor in an artery downstream an aneurysm (fig.14).

Referring to claims 2 and 3, Dereume discloses a first prosthesis (2, 11, 12) comprising a stent (3) and graft material (11, 12) communicating with the stent, wherein the stent and graft define a fluid flow path (2) through the prosthesis.

Referring to claim 5, Dereume discloses a gasket (sections 5, 6 of 4) configured to receive two second prosthesis (13, 33, see fig.7).

Referring to claims 6-8, Dereume discloses the second prosthesis (13, 33) comprising a stent (14) and a graft (15) material communicating with the stent, wherein the stent and graft define a fluid flow path (30) through the aneurysm, wherein the path is a channel that passes the aneurysm (fig.14).

Art Unit: 3738

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
